# Prologue

The universe is a constant maelstrom of good and evil, the two equal but opposite forces that balances the nature of all things. This fragile balance is held in check by the powerful Prime Orb, which is kept on the Island of Keire. The Prime Orb acts as a scale that constantly monitors the ebb and flow of the tides of good and evil.

Legends say that long ago, the Prime Orb was forged by omnipotent beings who dwelt on a different dimensional plane from mortal man's. To some people, the ancient creators of the Prime Orb are known as Dragons, to others, they are worshipped as gods. The Dragons created the Prime Orb to maintain equilibrium in the human world, for somehow the Dragon dimension and the human's dimension were inextricably linked by a common thread.

For countless eons, the Prime Orb has tirelessly balanced the flow of good and evil, maintaining the harmony of the human dimension and Dragon dimension. Suddenly, somehow, this balance has been disrupted...

# Your Story

You aspire to be a great warrior like your mentor, Master Qunos. Ever since he found you as an orphaned baby, Master Qunos and his assistant, Damme, have trained you in the ways of weaponry, magic, and strategy. While your proficiency grows with every new lesson, you are still a novice in the arts of combat.

You look forward to the day when you can honorably protect the weak and defend the innocent, but right now, you are content to be a pupil of the great Master Qunos, live in the pleasant small town of Rysis on Keire Island, and spend your free time with Katarina, Master Qunos' grand-daughter. Yes, life is good, until...

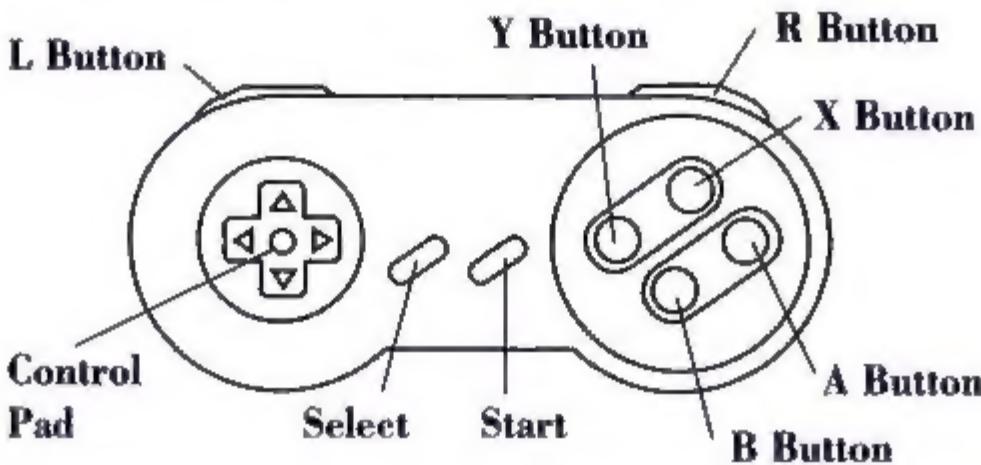

Recently, disturbing rumors of demons and their terrible deeds have been filtering through to your village. Personally, you have not been affected by these stories, but that changes when Argos, a mercenary serving the Underworld, abducts Katarina. Katarina holds the key to what the Underworld desires most.

For reasons unknown, the dark forces of the Underworld require Katarina for their arcane activity. You are now forced to journey on a quest to find your lost love. Armed with only your apprentice's sword, rudimentary magic, and the mysterious pendant that you have possessed ever since you can remember, you must leave the familiar comforts of your home and confront the challenges of the Underworld.

# Controller Functions

It is wise for a novice warrior to learn proper handling of your weapons and magic before you venture on your perilous journey.

# File Control

At the Menu screen, select "File Control" to copy or erase files.

Copying the contents of one file to another is useful if someone else wants to play the game starting at a higher level.

Erasing the entire contents of a file allows players to start the game from the very beginning.

Follow the on screen instructions to copy or erase files. Using the Control Pad, select the desired function and press the Start Button to execute that function.

Press the Select Button to return to the Menu screen.

# Game Screen Description

There are two types of gameplay screens in Dragon View; the 3D Outer World, and the horizontal scrolling Town and Battle scenes. The bottom half of your screen is the Game Information Panel.

The Game Information Panel displays important information about your current selected weapon, magic, and experience status.

Below is an example of a Battle scene. You will encounter demons in areas outside of towns and villages. In the Outer World, demons can be detected by their telltale cloud of vile smelling Underworld mist. Destroy the demons to gain HP, MP, and EXP.

If necessary, healers will also treat your wounds by replenishing your HP to maximum capacity.

Visit these valuable allies whenever you can. Remember to save your game often... you may encounter a powerful enemy before you are ready.

# Game Over

If you lose all of your HP during battle, the game is over. The game will automatically reset to the beginning. Select "Load Game" at the Menu screen at the beginning of the game and choose your game file. The game will begin at the point where you last previously saved.

## Hints

Save your journey often, for powerful enemies are everywhere.

Visit shops to purchase exotic items and supplies.

When you are in towns, talk to as many people as possible. They may possess important information or items, or they may just entertain you on your difficult quest.

Kind acts are sometimes rewarded.

Wander from the beaten path. While there are more demons and dangers to encounter, you may discover hidden areas and items.

Explore areas thoroughly. Some objects in your surroundings can be moved, hit, or exploded to reveal secret entrances or items.

Defeat enemies to obtain jade and MP. Jade is the currency of Keire Island.

## *Final Words*

Warrior! Heed my words. These clues will enable you to start your long journey...

First obtain the map of Hujia from your true love.

The Hujians hold the key to explosive power.

Your first test awaits you in the storehouse... be sure you have sufficient strength!

Use your new item to clear your path.

Speak to Rodister, for he offers guidance and experience.

Master Qunos enables you to defeat the inferno.

Obtain the Fire Ring for devastating offensive power.

The rest of your journey awaits...
